

The General Manager

Blue Mountains City Council

Katoomba 2780

Regarding: Springwood Community & Cultural Facilities

Dear Sir,

The various options presented in Council's extremely hard to decipher and expensive brochure are typically unrepresentative of Community needs and wants and do not embody current planning guidelines for LEP2005. EMP2 Studies (which informed LEP2005) recognised the constraints (environmental & heritage) of Springwood. All of the options have the capacity to grossly overdevelop and have detrimental effects on, what is already, steeply sloping and environmentally sensitive land.

I consider it would be more appropriate for Council to refurbish the Civic Precinct. We do not need another supermarket!

Yours sincerely
